## EDUCATION

### The University of Texas at Austin | B.S. Computer Science

Expected Graduation May 2027

- Relevant Coursework: Intro to Programming (Java), Computer Fluency, Differential Calculus for Engineers, Data Statistics

## TECHNICAL PROJECTS

### Consulting Landing Page: Nwaneri CPA (GitHub)

December 2023 - January 2023

- Introduced a landing platform for a financial consultant that increases their marketability and clients by over **15%** since launch
- Incorporates a responsive calendar for availability, book appointments link, and offers quotes, leading to an increase in client
- *Utilities: JavaScript, HTML, CSS*

### Fast Twitch (GitHub)

October 2023 - Present

- Fabricated a mockup using XCode and Figma for a mobile virtual speed training app for sports like football, track, soccer, etc.
- Eliminates the hassle of planning workouts by automating a workout tuned to the user's goals using A.I., web scraping, and Google APIs
- *Utilities: Swift, XCode, Figma*

### Youtube to Spotify Playlist (GitHub)

October 2023

- Implemented seamless integration of Google and Spotify APIs
- Enables the extraction of metadata from any YouTube playlist and facilitates the automatic creation of a playlist on a user's Spotify account in **~2 seconds**
- *Utilities: Python, Google APIs, Spotify APIs*

### Personal Portfolio Webpage (GitHub)

July 2023 - Present

- Coded a personal website from scratch as a personal portfolio that contains more about me, my portfolio, and experiences
- *Utilities: JavaScript, HTML, CSS, Bootstrap*

### Shalom African Fashion and Goods Website (GitHub)

June 2020 - January 2023

- Designed a website for a local business that contributed to a **30% boost** in in-store customer traffic, up to **50%** during black history month
- Expanded online presence, contributing to increased sales and social media visibility, accumulating **200+ Instagram followers** post launch.
- *Utilities: CSS, HTML, JavaScript, and Bootstrap*

### Nationwide Tax Calculator (GitHub)

April 2020

- Implemented arithmetic and algorithms to quickly and efficiently calculate the sales tax and total basket price in the **50 U.S. states** and **US owned territory**
- *Utilities: Java*

## WORK EXPERIENCE

### Freelance Web Developer

August 2023 - Present

- Develop websites for blogs, personals, and businesses, creating an online audience for students at UT Austin to grow their personal or product-based brands

### Web Developer - Shalom African Fashion & Goods

June 2020 - January 2023

- Programmed and managed a business website using **HTML, CSS, and Javascript** responsible for displaying social media, inventory, opening times, etc.

## SKILLS & CERTIFICATIONS

- **Oracle Java Certification**
- **Languages:** Java, Python, HTML, CSS; **Other Skills:** Figma, Swift, XCode, API Integration

## LEADERSHIP & EXTRACURRICULARS

### National Society of Black Engineers (NSBE) - Chapter Executive Board Officer

September 2023 - Present

- Coordinate NSBE events for STEM and business students on campus to create career opportunities, reveal resources, and build a community

### Association of Black Computer Scientists (ABCS) - Member

September 2023 - Present

- Cooperate with other CS students, accommodating workshops (e.g., internship, interview, resume) and recruiting events with tech-based sponsors

### UT HackTX 2023 Rodeo - Hack-a-thon

October 2023

- Competed in the annual Hack-a-thon hosted by UT Austin where I competed with a team to build the mockup and idea of my **Fast Twitch** application

### Summit Christian Center - Volunteer

August 2019 - Present

- Volunteered **400+ hours** editing and displaying slides for two church services while simultaneously managing Summit's livestream weekly using ProPresenter

**Awards:** College Board African American Recognition 2022, AP Scholar (2022, 2023), Summit Church Senior Scholarship Winner, Top 2% Graduate

**Hobbies:** Drawing, Fashion, Track & Field, Dancing
